Product Parameters

Material : Metal Frame +Resistance Screen

The standard installation of 86 box: (Bottom deepness: 50mm)

Operating voltage: 220V±10% (50HZ)

- Light controlled by card for energy saving.
- Individual gang master switch Off / On.
- One coaxial cable can achieve the dual control and multi-control.
- LED backlight touch-design for easy identification at night.
- The words can be customized as required.
- Each switch comes with an in-built replaceable fuse for protection against inrush current & lightning.
- Convenient maintenance.

PRODUCT PARAMETERS

Material Options:

Metal Frame + Resistance Screen

Tempered Glass Panel + Capacitive Screen

Tempered Glass Panel + Metal Frame + Capacitive Screen

Dimensions:

86*86mm

86*258mm

Operating voltage:

220V ± 10% (50HZ)

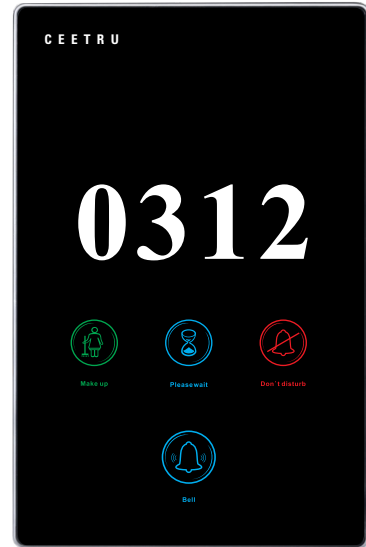

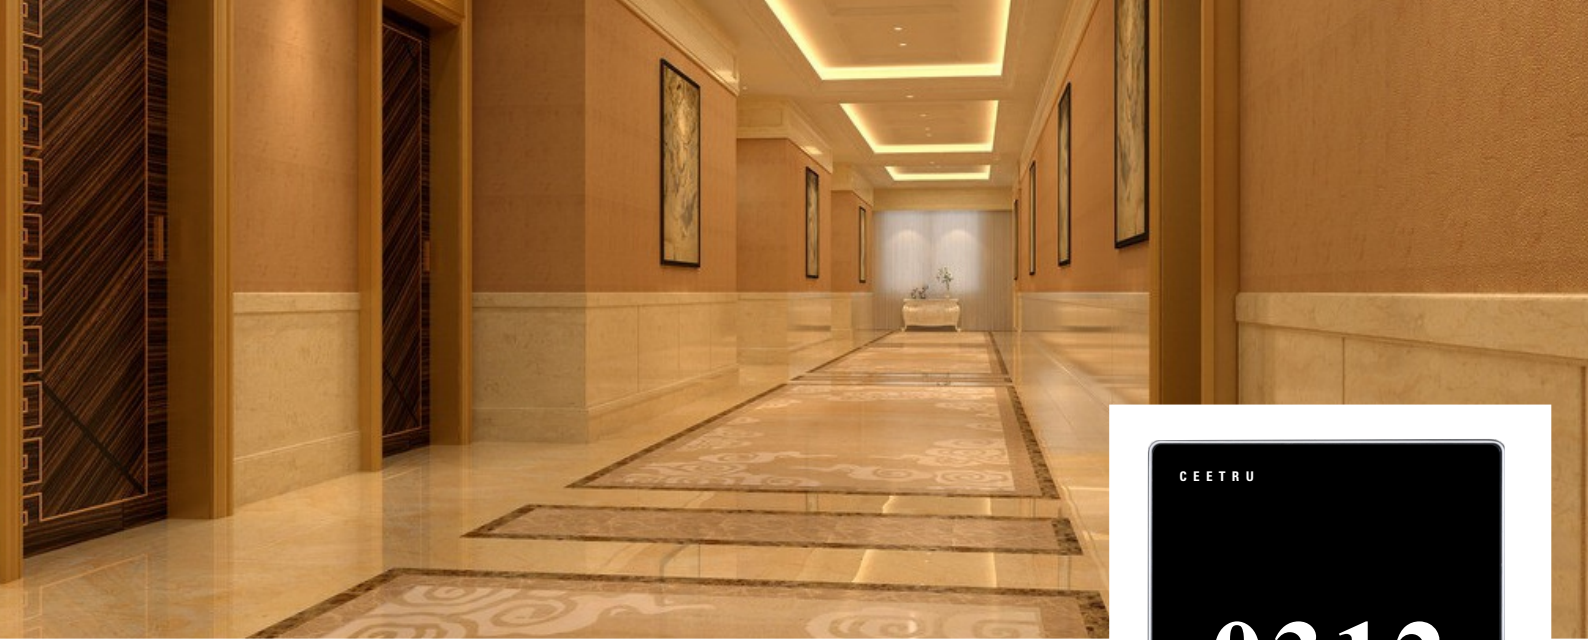

The standard installation of 86 box:

(Bottom deepness: 50mm)

Wiring:

Neutral wire, Live Wire

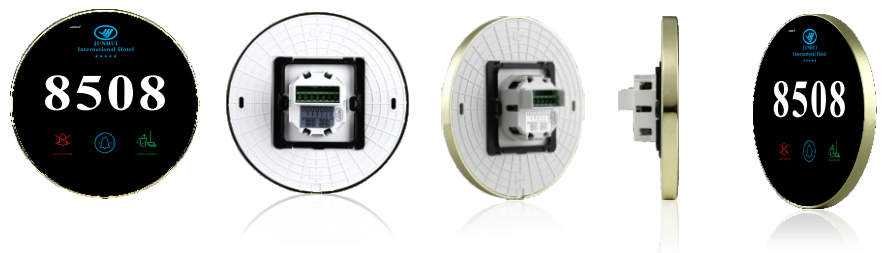

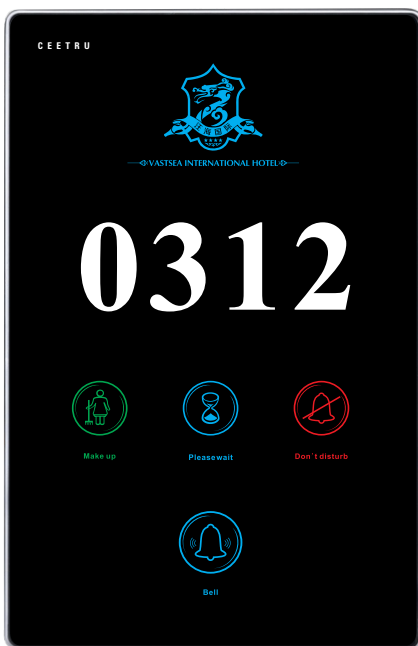

Hotel Doorbell System

A simple way for guests to communicate with staff from the comfort of their room. Don't want to be disturbed or need your room cleaned? Simply, touch a button.

Hotel Card Key

Our hotel card key switch is designed for saving energy and hotel safety. Card key switch automatically controls the on and off power for room. Electrical equipment (Air Condition, TV, light) can also be used.

This regulation can bring direct economical benefits for hotels, reduce the hidden danger of the electrical equipments, prolong the service life of various appliance and promote room electric use safety.

CEE-JZQ86-QMFA

High frequency card key switch
(use for the Mf1 card)

CEE-JDQ86-QMFY

High frequency card key switch
(use for the Mf1 card)

CEE-JDQ86-QMFA

High frequency card key switch
(use for the Mf1 card)

CEE-JZQ86-QTMA

RF card key switch
(use for the T5557, T5567, EM card)

CEE-JDQ86-QTMY

RF card key switch
(use for the T5557, T5567, EM card)

CEE-JDQ86-QTMA

RF card key switch
(use for the T5557, T5567, EM card)

CEE-JDQ86-QMFY

Product Parameters

Card type : applied to the hotel

Operating voltage : 220V±10%(50HZ)(other voltage can be customized)

Maximum load 30A/15A

Maximum power rate : 5000W

Time delay : 8-12seconds

No-work state : the indicator light is red

Installation : The standard installation of 86 box:(deepness:50mm)

Material: Fireproof PC/ABS Material

Dimension : 86*86mm (deepness 35mm)

Operating voltage : 220V±10%(50HZ)

Operating humidity: 0-90%RH

The standard installation of 86 box:(deepness:50mm)

Other Accessories

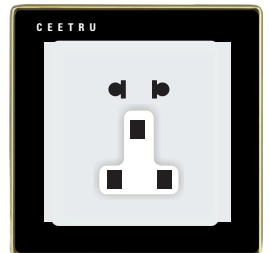

TV/PC
